As Milan's furniture fair returns,
we present the pieces making a splash

'ALLURE O' TABLE AND 'FLAIR O' CHAIR

by Monica Armani, for B&B Italia

Italian architect and designer Monica Armani took inspiration from 1960s style icon Jackie O to create her new 'Allure O' table and 'Flair O' chair. 'I love her glamorous style; it's always precise, never excessive,' says Armani. 'She's the interpreter of what I consider true luxury: the search for detail, harmony and balance.' Recalling the elliptical geometric shapes of the designer's 2017 'Madison' mirror, itself inspired by Jackie O's signature sunglasses, the pieces sport

similarly graceful, sinuous lines. The 'Allure O' features a bevelled-edge rectangular or square top sited on a perfectly proportioned, truncated pyramid base. It is available in either solid light or black oak, as well as a variety of glossy and matt painted finishes in 18 different shades. The matching 'Flair O' chair, featuring the same truncated cone base and rounded edges, can be upholstered in any fabric in the B&B Italia collection. *Prices on request, bebitalia.com*
