

DINING EXPERIENCE

A perfectly rounded offering

Italian architect Monica Armani took inspiration from 1960s style icon Jackie O to create her 'Allure O' table and 'Flair O' chairs. 'I love her glamorous style; it's always precise, never excessive,' says Armani. Recalling the elliptical geometric shapes of the designer's 2017 'Madison' mirror, itself inspired by Jackie O's signature sunglasses, the pieces sport similarly graceful, sinuous lines, with a perfectly proportioned truncated cone base and rounded edges. To complement them are two equally curvy and elegant tableware collections: 'Dough', by London studio Toogood, is named to highlight the kneading process that is essential in both baking and pottery, while the 'Omar' series, by Barcelona-based designer Omar Sosa, is handmade in Portugal for Copenhagen's Raawii and available in either blue or a selection of earthy tones. ★
