

New partnership with Monica Armani

Zanotta renews its commitment to promoting **unprecedented collaborations** with leading designers this year. The brand presented the new **Rondevù** armchair with soft, enveloping lines by Monica Armani, designed for home, hospitality, and work environments: a system that creates a delicate separation; the same product is also available in the **Vis-à-Vis** version, developed to encourage conversation. The designer also created **Alfarè**, a collection of coffee tables with a strong material presence.

Pictured here is the new Rondevù armchair with its soft, enveloping lines.

Monica Armani also designed Alfarè, a collection of coffee tables with a strong material presence.

Rondevù by Monica Armani is also available in the Vis-à-Vis version developed to encourage
